Subject Index for Volume 36 of Materials Evaluation

Acoustic Emission Detection of Fatigue Crack Growth in a Production-Size Aircraft Wing Test Article Under Simulated Flight Loads, W. M. Pless, C. D. Bailey, and J. M. Hamilton, No. 5, p. 41

Acoustic Emission from Welded Beryllium, C. R. Heiple and R. O. Adams, No. 1, p. 35

Acoustic Imaging of Composites—The Ultrasonic Test That Requires No Interpretation, G. C. Knollman, D. Carver, and J. J. Hartog, No. 12, p. 41

Acoustic Measurement of Valve Leakage Rate,* J. Dickey, J. Dimmick, and P. M. Moore, No. 1, p. 67

Analysis of Stress Wave Emission (SWE) in Resistance Welding of Tantalum Capacitor, M. C. Jon, H. A. Duncan, and S. J. Vahaviolos, No. 11, p. 40

Application of Computed Tomography, Boundary Detection, and Shaded Graphics Reconstruction to Industrial Inspection, The,* R. P. Kruger and T. M. Cannon, No. 5, p. 75

ASNT Position Paper on the Use of SNT-TC-1A and the ASNT Level III Certification Program, No. 6, p. 21

Calibration of Ultrasonic Systems for Inspection from Curved Surfaces, J. R. Birchak and S. Serabian, No. 1, p. 39

Calibrations and Standards for Nondestructive Testing, H. Berger and L. Mordfin, No. 11, p. 36

Comparative Evaluation of Potential NDE Techniques for Inspection of Advanced Composite Structures, W. H. Sheldon, No. 2, p. 41

Correlations among Ultrasonic Propagation Factors and Fracture Toughness Properties of Metallic Materials, A. Vary, No. 7, p. 55

CRISP-E Penetrant System, J. R. Alburger, No. 12, p. 33

Data Sheet: NDT Applications, No. 10, pps. 73–74

Data Sheet: NDT Applications, No. 12, p. 22

Data Sheet: NDT Applications, No. 13, p. 14

Determination of Defect Characteristics Using Focused Probes,* R. Saglio, A. C. Prot, and A. M. Touffait, No. 1, p. 62

Determination of Nondestructive Inspection Reliability Using Field or Production Data,* D. P. Johnson, No. 1, p. 78

Determining Variability of Wall Thickness Measurements During Ultrasonic Inspection of Shipsystem Components, N. J. Gleicher, J. R. Nicholas, Jr., and R. J. Willingham, No. 13, p. 47

Development of an X-Ray Exposure Chart, Experiment No. 1 (Student Spotlight), R. Pfannenstiel, G. Dobey, and D. Ely, No. 7, p. 68

Digital Plot System Developed for NDT, A, W. E. Woodmansee, No. 4, p. 45

Eddy Current Conductivity of Ti-6Al-4V Alloy, The Effect of High Temperature Oxidation on the, A. Arieli, Y. Bar-Cohen, and A. Blas, No. 6, p. 62

Effect of High Temperature Oxidation on the Eddy Current Conductivity of Ti-6Al-4V Alloy, The, A. Arieli, Y. Bar-Cohen, and A. Blas, No. 6, p. 62

EPRI Program to Improve Nuclear Code Inspection Methods, Eugene R. Reinhart, No. 6, p. 36

Evaluation of Echoes in Ultrasonic Testing by Deconvolution,* E. Nabel and E. Mundry, No. 1, p. 59

Experimental Determination of Ultrasonic Attenuation Characteristics Using the Roney Generalized Theory, S. Serabian and R. S. Williams, No. 8, p. 55

Fatigue Crack Growth in a Production-Size Aircraft Wing Test Article Under Simulated Flight Loads, Acoustic Emission Detection of, W. M. Pless, C. D. Bailey, and J. M. Hamilton, No. 5, p. 41

Focused Probes, Determination of Defect Characteristics Using,* R. Saglio, A. C. Prot, and A. M. Touffait, No. 1, p. 62

Fundamentals of Radiography (Back to Basics), No. 4, p. 24

Fundamentals of Radiography (Back to Basics), No. 6, p. 24

Fundamentals of Radiography (Back to Basics), No. 8, p. 22

Fundamentals of Radiography (Back to Basics), No. 9, p. 19

HNDT Update, Robert K. Erf, No. 9, p. 47

Impulse-Induced-Resonance Utilizing Damping for Adhesive Disbond Detection, Ultrasonic, E. P. Papadakis, No. 2, p. 37

Inspectability of Austenitic Stainless Steel Welds, Role of Microstructure in Ultrasonic,* D. S. Kupperman, K. J. Reimann, and N. F. Fiore, No. 5, p. 70

Inspection from Curved Surfaces, Calibration of Ultrasonic Systems, for, J. R. Birchak and S. Serabian, No. 1, p. 39

Inspection Fundamentals, Magnetic Particle (Back to Basics), No. 2, p. 24

Inspection Methods, EPRI Program to Improve Nuclear Code, Eugene R. Reinhart, No. 6, p. 36

Inspection Methods for Small-Bore Applications, Ultrasonic, K. V. Cook and R. A. Cunningham, Jr., No. 7, p. 49

Inspection of Advanced Composite Structures, Comparative Evaluation of NDE Techniques for, W. H. Sheldon, No. 2, p. 41

Inspection of Composites, The Use of Radiographically Opaque Fibers to Aid the, R. L. Crane, F. Chang, and S. Allinikov, No. 10, p. 69

Inspection of Gas Turbine Sand Castings, Ultrasonic, R. H. Urich and W. H. Sproat, No. 8, p. 41

Inspection of Seamless Drill Casing and Linepipe, Ultrasonic, R. F. Lumb, H. Bosselaar, and V. M. Baborovsky, No. 10, p. 57

Inspection of Shipsystem Components Determining Variability of Wall Thickness Measurement During, N. J. Gleicher, J. R. Nicholas, Jr., and R. J. Willingham, No. 13, p. 47

Inspection of Thin Fusion Welds in Tractor Cabs, Ultrasonic, Richard C. Canada, No. 12, p. 29

Inspection, Principle of Complete, Murray E. Liebman, No. 8, p. 72

Inspection Reliability Using Field or Production Data, Determination of Nondestructive,* D. P. Johnson, No. 1, p. 78

Inspection, The Application of Computed Tomography, Boundary Detection, and Shaded Graphics Reconstruction to Industrial,* R. P. Kruger and T. M. Cannon, No. 5, p. 75

Integrated Overview of "CRISP" Recyclable Materials and Systems, An, J. R. Alburger, No. 6, p. 65

Laser Speckle Photography Measurements of Movement and Strain in Steel Structures at Temperatures of 20–520° C, D. J. V. Martin, No. 6, p. 53

Leakage Fields Around Defects in Ferromagnetic Materials, Residual and Active, W. Lord, J. M. Bridges, W. Yen, and R. Palanisamy, No. 8, p. 47

Leakage Rates, Acoustic Measurement of Valve,* J. Dickey, J. Dimmick, and P. M. Moore, No. 1, p. 67

Liquid Penetrants (Back to Basics), No. 1, p. 21

Magnetic Particle Inspection Fundamentals (Back to Basics), No. 2, p. 24

Materials Identification in the Field, B. Ostrofsky, No. 9, p. 33

Metallography and NDT in the Analysis of a Failed Steam Accumulator, The Role of, P. O'Keefe, No. 9, p. 40

NDE Techniques for Inspection of Advanced Composite Structures, Comparative Evaluation of, W. H. Sheldon, No. 2, p. 41

NDT, A Digital Plot System Developed for, W. E. Woodmansee, No. 4, p. 45

NDT—A Tool for Quality Control in the Foundry (Technical

*Asterisks used to denote a paper included in the January or April Research Supplement.

Note), R. Prasad, No. 13, p. 24
NDT in the Analysis of a Failed Steam Accumulator, The Role of Metallography and, P. O'Keefe, No. 9, p. 40
NDT of DC 10 Graphite Epoxy Rudder, D. J. Hagemaier, No. 6, p. 57
NDT Reliability and Human Factors, J. C. Herr and G. L. Marsh, No. 13, p. 41
Neutron Radiography, The Physical Basis for Accurate Dimensional Measurements in, A. A. Harms, M. Heindler, and D. M. Lowe, No. 5, p. 49
*Nondestructive Inspection Reliability Using Field or Production Data, Determination of,** D. P. Johnson, No. 1, p. 78
Nondestructive Testing, Calibrations and Standards for, H. Berger and L. Mordfin, No. 11, p. 36
Nuclear Code Inspection Methods, EPRI Program to Improve, Eugene R. Reinhart, No. 6, p. 36
Penetrant System, CRISP-E, J. R. Alburger, No. 12, p. 33
Physical Basis for Accurate Dimensional Measurements in Neutron Radiography, The, A. A. Harms, M. Heindler, and D. M. Lowe, No. 5, p. 49
Principle of Complete Inspection, Murray E. Liebman, No. 8, p. 72
Radiographic Determination of Defect Thicknesses, A Visual Comparative Method for, J. F. Landolt, W. D. Stump, and J. L. Summers, No. 11, p. 33
Radiographic Sensitivity and Detail Visibility (Student Spotlight), Edward D. Sullivan, No. 2, p. 29
Radiographically Opaque Fibers to Aid the Inspection of Composites, The Use of, R. L. Crane, F. Chang, and S. Allinikov, No. 10, p. 69
Radiography, Fundamentals of (Back to Basics), No. 4, p. 24
Radiography, Fundamentals of (Back to Basics), No. 6, p. 24
Radiography, Fundamentals of (Back to Basics), No. 8, p. 22
Radiography, Fundamentals of (Back to Basics), No. 9, p. 19
Radiogaphy, The Physical Basis for Accurate Dimensional Measurements in Neutron, A. A. Harms, M. Heindler, and D. M. Lowe, No. 5, p. 49
Quality Control in the Foundry, NDT—A Tool for (Technical Note), R. Prasad, No. 13, p. 24
Residual and Active Leakage Fields Around Defects in Ferromagnetic Matrials, W. Lord, J. M. Bridges, W. Yen, and R. Palanisamy,No. 8, p. 47
Role of Metallography and NDT in the Analysis of a Failed Steam Accumulator, The, P. O'Keefe, No. 9, p. 40
*Role of Microstructure in Ultrasonic Inspectability of Austenitic Stainless Steel Welds,** D. S. Kupperman, K. J. Reimann, and N. F. Fiore, No. 5, p. 70
Simplified Apparatus for Producing Transaxial Tomograms (Technical Note), D. R. Craig and M. P. Sirkis, No. 11, p. 20
SNT-TC-1A Interpretation Panel Responds to Inquiries, No. 11, p. 24
Standards for Nondestructive Testing, Calibrations and, H. Berger and L. Mordfin, No. 11, p. 36
Stress Wave Emission (SWE) in Resistance Welding of Tantalum Capacitor, Analysis of, M. C. Jon, H. A. Duncan, and S. J. Vahaviolos, No. 11, p. 40
Stress Wave Emission (SWE) Techniques, Testing Resistance Spot Welds Using, M. C. Jon, C. A. Keskimaki, and S. J. Vahaviolos, No. 4, p. 41
Testing Resistance Spot Welds Using Stress Wave Emission (SWE) Techniques, M. C. Jon, C. A. Keskimaki, and S. J. Vahaviolos, No. 4, p. 41
Tomograms, Simplified Apparatus for Producing Transaxial (Technical Note), D. R. Craig and M. P. Sirkis, No. 11, p. 20
*Tomography, Boundary Detection and Shaded Graphics Reconstruction to Industrial Inspection, The Application of Computed,** R. P. Kruger and T. M. Cannon, No. 5, p. 75
Ultrasonic Attenuation Characteristics Using the Roney Generalized Theory, Experimental Determination of, S. Serabian and R. S. Williams, No. 8, p. 55
Ultrasonic Impulse-Induced-Resonance Utilizing Damping for Adhesive Disbond Detection, E. P. Papadakis, No. 2, p. 37
*Ultrasonic Inspectability of Austenitic Stainless Steel Welds, Role of Microstructure, in,** D. S. Kupperman, K. J. Reimann, and N. F. Fiore, No. 5, p. 70
Ultrasonic Inspection Methods for Small-Bore Applications, K. V. Cook and R. A. Cunningham, Jr., No. 7, p. 49
Ultrasonic Inspection of Gas Turbine Sand Castings, R. H. Urich and W. H. Sproat, No. 8, p. 41
Ultrasonic Inspection of Seamless Drill Casing and Linepipe, R. F. Lumb, H. Bosselaar, and V. M. Baborovsky, No. 10, p. 57
Ultrasonic Inspection of Shipsystem Components, Determining Variability of Wall Thickness Measurements During, N. J. Gleicher, J. R. Nicholas, Jr., and R. J. Willingham, No. 13, p. 47
Ultrasonic Inspection of Thin Section Fusion Welds in Tractor Cabs, Richard C. Canada, No. 12, p. 29
Ultrasonic Propagation Factors and Fracture Toughness Properties of Metallic Materials, Correlations among, A. Vary, No. 7, p. 55
Ultrasonic Systems for Inspection from Curved Surfaces, Calibration of, J. R. Birchak and S. Serabian, No. 1, p. 39
Ultrasonic Test That Requires No Interpretation, Acoustic Imaging of Composites—The, G. C. Knollman, D. Carver, and J. J. Hartog, No. 12, p. 41
*Ultrasonic Testing by Deconvolution, Evaluation of Echoes in,** E. Nabel and E. Mundry, No. 1, p. 59
Ultrasonic Testing Fundamentals (Back to Basics), No. 5, p. 22
Ultrasonic Testing Fundamentals (Back to Basics), No. 7, p. 37
Use of Radiographically Opaque Fibers to Aid the Inspection of Composites, The, R. L. Crane, F. Chang, and S. Allinikov, No. 10, p. 69
Visual Comparative Method for Radiographic Determination of Defect Thickness, A, J. F. Landolt, W. D. Stump, and J. L. Summers, No. 11, p. 33
Welded Beryllium, Acoustic Emission from, C. R. Heiple and R. O. Adams, No. 1, p. 35
Welding of Tantalum Capacitor, Analysis of Stress Wave Emission (SWE) in Resistance, M. C. Jon, H. A. Duncan, and S. J. Vahaviolos, No. 11, p. 40
Welds in Tractor Cabs, Ultrasonic Inspection of Thin Section Fusion, Richard C. Canada, No. 12, p. 29
*Welds, Role of Microstucture in Ultrasonic Inspectability of Austenitic Stainless Steel,** D. S. Kupperman, K. J. Reimann, and N. F. Fiore, No. 5, p. 70
Welds Using Stress Wave Emission (SWE) Techniques, Testing Resistance Spot, M. C. Jon, C. A. Keskimaki,and S. J. Vahaviolos, No. 4, p. 41
X-Ray Exposure Chart, Experiment No. 1, Development of an, (Student Spotlight), R. Pfannenstiel, G. Dobey, and D. Ely, No. 7, p. 68
